### 5. Plans

25X1A9a

a. Under [REDACTED] guidance, plans are going forward for a consolidation of research effort in the field of military economics. Preliminary steps are being taken in anticipation of authorization of a military economics group composed of I/AR, I/SH, I/WA, A/NE and a newly constituted branch, I/GM. The research program for Fiscal Year 1957 for the military economics group has already been formulated with the cooperation of all the interested branches.

25X1A9a

[REDACTED] current activities involve visiting all the branches concerned with military studies to become personally acquainted with the personnel, and with the mission, current activities, and problems of each branch.

b. A training program for D/I personnel closely related with plans for proposed work in the economic aspects of atomic energy has been inaugurated and will be pursued.

c. St/GM is currently preparing the economic contribution to HIE 11-5-56 (Guided Missiles) for submission to the Guided Missiles Intelligence Committee.

SECRET

- d. Representatives of O/Cb/D/I and I/M are participating in preparation of comments for the IAC Standing Committee on Exchanges regarding a Soviet proposal for an exchange of visiting delegations in the metal forge-press industry. Recommendations will be submitted by the RIC Subcommittee on Industrial Machinery and Equipment of which Chief, D/I is Chairman.

6. Problems

- a. The problem of adequate space has arisen in connection with prospective expansion of the duties and personnel of D/I. A current unresolved question relates to the provision of suitable working space of specially cleared personnel engaging in study of atomic energy economics.
- b. Separation of clerical personnel without prompt replacement is a continuing problem. It is appreciated that this difficulty is not limited to D/I, but this condition has affected the preparation of research studies for submission.

7. Recommendations
